

HIGH-PERFORMANCE WASHROOM OFFER

MEET THE TOUGHEST DEMANDS

- **Stylish washrooms** – modern taps, showers and urinal flushing controls that keep users safe without compromising on style.
- **Great performance** – the highest manufacturing and testing standards for longevity that you can rely on.
- **Greener facilities** – reduce water and energy consumption and running costs, with low-regulating functionality, digital precision, and automated usage data collection.
- **Everything you need** – a wide range of products and supporting service packages means you'll find the perfect fit, whatever your requirements.

INTEGRATED SERVICE AND PRODUCT FOR TOTAL PEACE OF MIND

EXAMPLE PRICING FOR RFU CLUBS

(based on two banks of five showers)

- Fixed annual cost £1,337
- Five-year total £6,687

RUGBY CLUB CASE STUDY

Recognising that its facilities are an integral part of its success, Cheltenham Tigers Rugby Club set out to create changing rooms fit for the future. A combined product and service package including digital Outlook showers and taps was provided.

CLIENT

CHELTENHAM TIGERS RUGBY CLUB

PROJECT

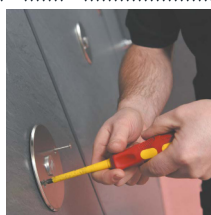

CHANGING ROOMS REFURBISHMENT

OBJECTIVE

HIGH-PERFORMING WASHROOMS FOR YEARS TO COME

SOLUTION

OUTLOOK DIGITAL SHOWERS, TAPS, SENSORS AND CONTROLS, WITH COMMISSIONING AND ONGOING SERVICE SUPPORT

A bespoke service package was created for the club by combining its commissioning service, including an enhanced guarantee, with digital monitoring and on-site support when needed.

Outlook's stylish, robust design is easy to use and meets high demands. Its digital thermostatic mixing valve can be programmed to specific temperatures, flow rates, and to carry out hygiene measures like duty flushing.

"This has helped us provide facilities that deliver the same levels of accuracy and focus that our players look to achieve on the pitch"

Steve Ratcliffe
chairman
Cheltenham Tigers Rugby Club
